

Keith Cox Autobahn | 36/36 Warranty Coverage

German Auto Service, Sales, Trust

This warranty is a collaboration written over the course of 10 years by Keith and his team, several client friends and peer businesses with very limited legal counsel. Its intent is to communicate, in simple terms, what we want to do for you and what we need you to do to make it work. We wanted to do this in layman's terms, instead of loading it up with legalese and confusing restrictions. Think about it in the spirit of a couple friends sitting down to work on this together. Both parties have responsibilities and privileges. On our part, we will do the best work we can with the correct parts and procedures. On your part, you have to pay attention to the important details as it relates to the daily operation of the car.

New noises or changes in performance may be clues to a potential problem and may need attention. We welcome and encourage you to come by or call anytime with concerns. Doing this may prevent something small from escalating into something more profound and expensive. We will check and top off all fluids, including engine oil and coolant, anytime between services, without an appointment and at no charge to you.

Keith and Team

German auto service, sales, trust.

WHAT'S COVERED

Keith Cox Autobahn (KCA) provides limited warranty coverage on engine or transmission replacement for a period of three years or 36,000 miles, whichever comes first. The KCA Warranty covers both labor and parts for the major power train, which means the engine parts that come in contact with the engine oil as designated by the manufacturer. Generally, this includes the:

- Internal block
- Crankshaft
- Pistons
- Connecting rods
- Valve train

This limited warranty also covers all new parts on the replacement engine or transmission invoice, except maintenance filters, fluids & oil.

YOUR RESPONSIBILITIES

This limited warranty is contingent upon the owner doing the following:

- Maintaining the engine as specified by the manufacturer and responding correctly to any of the vehicle's indicators regarding malfunctions and any system needing attention.
- Warranty and repair work will be done by KCA, unless otherwise agreed.
- Making the car available for inspection at least once every 5,000 miles or five months (whichever comes first) from the time of the engine or transmission replacement until the end of the warranty period. Normal services, such as oil changes and additional repairs within this period done at KCA, will satisfy this requirement.

EXCLUSIONS

This limited warranty does not cover the following:

- Damage caused by continuing to operate the vehicle after warnings and alerts have been activated or without proper fluid levels.
- Damage caused by an outside influence.
- Modifications made after the warranty work was performed.
- Parts that are not lubricated by the engine or transmission oil as required by the manufacturer.
- Parts which were not replaced at the time that KCA replaced the engine or transmission.

LIMITATIONS

This limited warranty has the following limits to coverage:

- Repairs done under this limited warranty do not extend the period of time or miles covered beyond the original date and mileage of the warranty.
- The cost of repairs under this limited warranty cannot exceed the dollar amount of the original work or the current market value of the car. KCA may, at its option, offer a cash settlement or purchase the subject car, as an alternative to redoing repairs, if agreeable to both parties.
